

MOBILE HEMODIALYSIS WATER TREATMENT SYSTEMS

As Vatek
Enviromental
Technologies, DL and
RL series Mobile Pure
Water Systems, which
are 100% our own
production,meet the
pure water needs of
autoclave and
autoanalyzer devices
in biochemistry
laboratories.

STANDARD FEATURES

- Compact structure
- Works automatically without human intervention.
- Filter changes are very easy.
- The produced water quality followable easily with digital conductivity meter.
- It is not affected by high water inlet pressures with pressure regulator.
- Efficient operation even in high hardness water.
- It has a 55 liter pure water tank.
- It provides water without bacterial contamination with uv lamp and bacteria filter.

MODEL	CAPACITY
RL10	10 L/H
DL30	30 L/H
DL50	50 L/H
DL100	100 L/H
DL250	250 L/H
